

RAIDER®
POWERSPORTS

VOLUME XXIII

OUR HISTORY

Our company roots date back to 1964. Raider®, a brand name snowmobile line, was sold and serviced by our team in the early '70s. Raider snowmobiles revolutionized the decade with their use of a rear-mounted engine, twin track design and cockpit seating.

TODAY

As a privately owned and operated third-generation, BCS International continues to develop conceptual ideas and turn them into innovative, state-of-the-art products that leave outdoor recreational enthusiasts clamoring for more. BCS International will keep adapting to changing times by offering the products your customers want at an exceptional value.

WELCOME

That passion and dedication continues to be evident in the 23rd edition of the Raider® powersports catalog, a labor of love from the staff at BCS International.

It features fresh styles, old favorites, vibrant designs and cutting-edge technology. We thank ongoing business partners for their trust and support.

And, we welcome first time buyers. We are honored you've given us the opportunity to earn your business and welcome you as our business partner.

OUR MISSION

To be the premier supplier of power sports and outdoor recreational products, parts and services to the world's top retailers.

Admired for our people, partnerships, speed and integrity.

RAIDER DOUBLE EAGLE 1973

RAIDER[®] **EPIC**

4 STEPS TO SIZE & FIT A HELMET

1. MEASURE

Measure the largest circumference of your head, the distance from the center of the forehead above the eyebrows and $\frac{1}{2}$ " above the ears, around back of the head to the center of the forehead.

2. REVIEW

Double check the measurement referencing the tape measure reading and the fitment charts below to find the appropriate size.

3. TRY IT ON

Try the helmet on that best matches your size measurements.
Fasten the chin straps of the helmet.
The helmet should fit securely, and feel comfortable. After breaking in the helmet, the liner will adjust slightly to head size.

4. TEST

With the helmet on and chin strap securely fastened:

Pinky test: Run your pinky finger between your head and the helmet liner by the forehead. There should be no gaps or open spaces.

Side-to-side test: With your arms and shoulders braced in place, move your head from side to side. Your cheeks should feel the pressure of the movements, but the helmet should not move or shift.

Up and down test: With your arms and shoulders braced in place, move your head up and down. Your cheeks should feel the pressure of the movements, but the helmet should not move or shift.

HELMET SIZING CHART

YOUTH

SIZE	INCHES	CM
S	20 $\frac{1}{16}$ - 20 $\frac{7}{16}$	51 - 52
M	20 $\frac{7}{8}$ - 21 $\frac{1}{4}$	53 - 54
L	21 $\frac{5}{8}$ - 22	55 - 56

CONEHEAD TECHNOLOGY™
The most advanced helmet technology in the World

#55-552X1
X1 Graphic

What's in a name? Everything when it comes to the **RAIDER® ELITE EUPHORIA** that features Conehead shock-absorbing technology, which reacts to impact in just 12 milliseconds. The Euphoria offers multiple air intake and flow exhaust valves and an adjustable visor. Safety never felt so exhilarating.

- ▷ Removable comfort/support liner and cheek pads for fast and easy cleaning
- ▷ Full DOT/ECE approval
- ▷ Available in two color options
- ▷ Available in sizes S-2XL

CONEHEAD

RAIDER ELITE® CONEHEAD TECHNOLOGY™

SAFETY REDEFINED!

Conehead shock-absorbing technology reacts to impact in just 12 milliseconds!

On impact, the force towards the head causes the cones to compress. This motion creates lateral forces, which spread sideways through the higher density foam, and are absorbed by the outer layer. While the head is traveling in the opposite direction, CONEHEAD compresses the lower density cones, which slow the compression to the head. The end result is drastically reduced impact G forces – **SAFETY REDEFINED!**

RAIDER®
Elite®

Tach

The **RAIDER® ELITE TACH MX** helmet is built for speed with its lightweight, durable thermoplastic shell and dual density liner that reduces shock impact while remaining comfortable all day. Cool graphics are an added bonus. Zoom, vroom and rumble!

ATV CABS

Experiencing the great outdoors is what riding an ATV is all about, but once in a while it's nice to have added protection against flying debris and inclement weather. That's the beauty of the Raider® ATV Cab.

- ▷ Constructed of heavy, 420 Denier-nylon
- ▷ Easy-to-install cab has clear plastic windows and fits most ATVs
- ▷ Roll-up zipper door and elastic cord will keep you dry and clean
- ▷ Cabs available in black or camouflage.

02-1008

SNOW THROWER COVER

Show your snow blower some love in the off-season with the Raider® Snow Blower Cover.

- ▷ Constructed of sturdy 210 Denier polyester material, this cover protects against the elements and helps to avoid rust
- ▷ Easy-on, easy-off design fits most two-stage snow throwers
- ▷ Sewn-in shock chord for a snug fit
- ▷ Handy storage bag will protect the cover

02-1402

SNOW THROWER CAB

We hate to be the bearer of bad news, but winter is around the corner. Make snow blowing more comfortable with the Raider® Snow Thrower Cab.

- ▷ Spacious, strong steel frame will protect against harsh winter weather and blowing snow
- ▷ Heavy-duty fabric is water-repellent and has freeze-resistant clear vinyl windows
- ▷ Assembled black cab can quickly be detached from the snow blower for ease of storage or to transport
- ▷ Thrower cab fits most two-stage snow throwers

RAIDER®

ATV GEAR / MAPPING

"If I only could see a map" is not a statement you'll make with the Raider® ATV Gear/Map bag in black or camouflage, which has a handy see-through map pocket for easy trail reading.

- ▷ Constructed of durable 600-Denier polyester fabric with weather protection backing
- ▷ Two large storage compartments, bottom base storage and Velcro sealed covers for protection

ALL-TERRAIN SKIS

If you're having problems steering or controlling your snowmobile, it's likely time to check your skis. New **RAIDER® ALL-TERRAIN SKIS**, will provide the enhanced handling you demand, culminating in a smooth, safe ride.

These 7" by 41" lightweight skis will be the perfect replacement for your heavy steel or worn compression molded skis, and are perfect for off-trail riding in deep powder.

▷ 7" x 41" ▷ Keel height: .0875" ▷ Use: Powder / Off Trail

BATTERY TENDER

The hard-as-nails chassis design of the Battery Tender® Plus has been around since 1991, yet the 1.25 amp, maintenance-free battery charger is as relevant today as it was nearly 25 years ago. Designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers, Battery Tender® Plus continues to pave the way.

- Complete four-step charge program that fully charges, maintains charge and avoids damage to marginal batteries
- Manufacturer's 5-year warranty

#AA-017
Battery Tender®
2 Bank Charger

- Complete four-step charge program that fully charges, maintains that charge and avoids damage to marginal batteries
- Includes 2 alligator clips and fused ring terminals

Bank Charger

BATTERY TENDER

DelTran's battery chargers, like the Battery Tender® Junior, automatically charge and switch to a maintenance mode so that you'll never overcharge your battery. Junior is the perfect solution for charging motorcycle and power sport batteries, lawn and garden equipment and automotive batteries.

- ▷ Mountable
- ▷ Complete four-step charge program that fully charges, maintains that charge and avoids damage to marginal batteries
- ▷ Manufacturer's 3-year warranty

Battery Tender®
800

All DelTran chargers are constant current, meaning the listed current is the true current your battery receives. The 12V Battery Tender® Waterproof 800 Charger is no exception. No larger than a standard computer mouse, it has 800 milliamps of pure current charging power, perfect for charging and maintaining equipment stored outdoors in the elements.

- ▷ Lightweight, compact design
- ▷ Complete four-step charge program that fully charges, maintains that charge and avoids damage to marginal batteries
- ▷ Includes rings and clips
- ▷ Comes in high efficiency 8V and 12V
- ▷ Manufacturer's 5-year warranty
